

Hors du Temps

Planétarium, les théories de l'Espace et du Temps

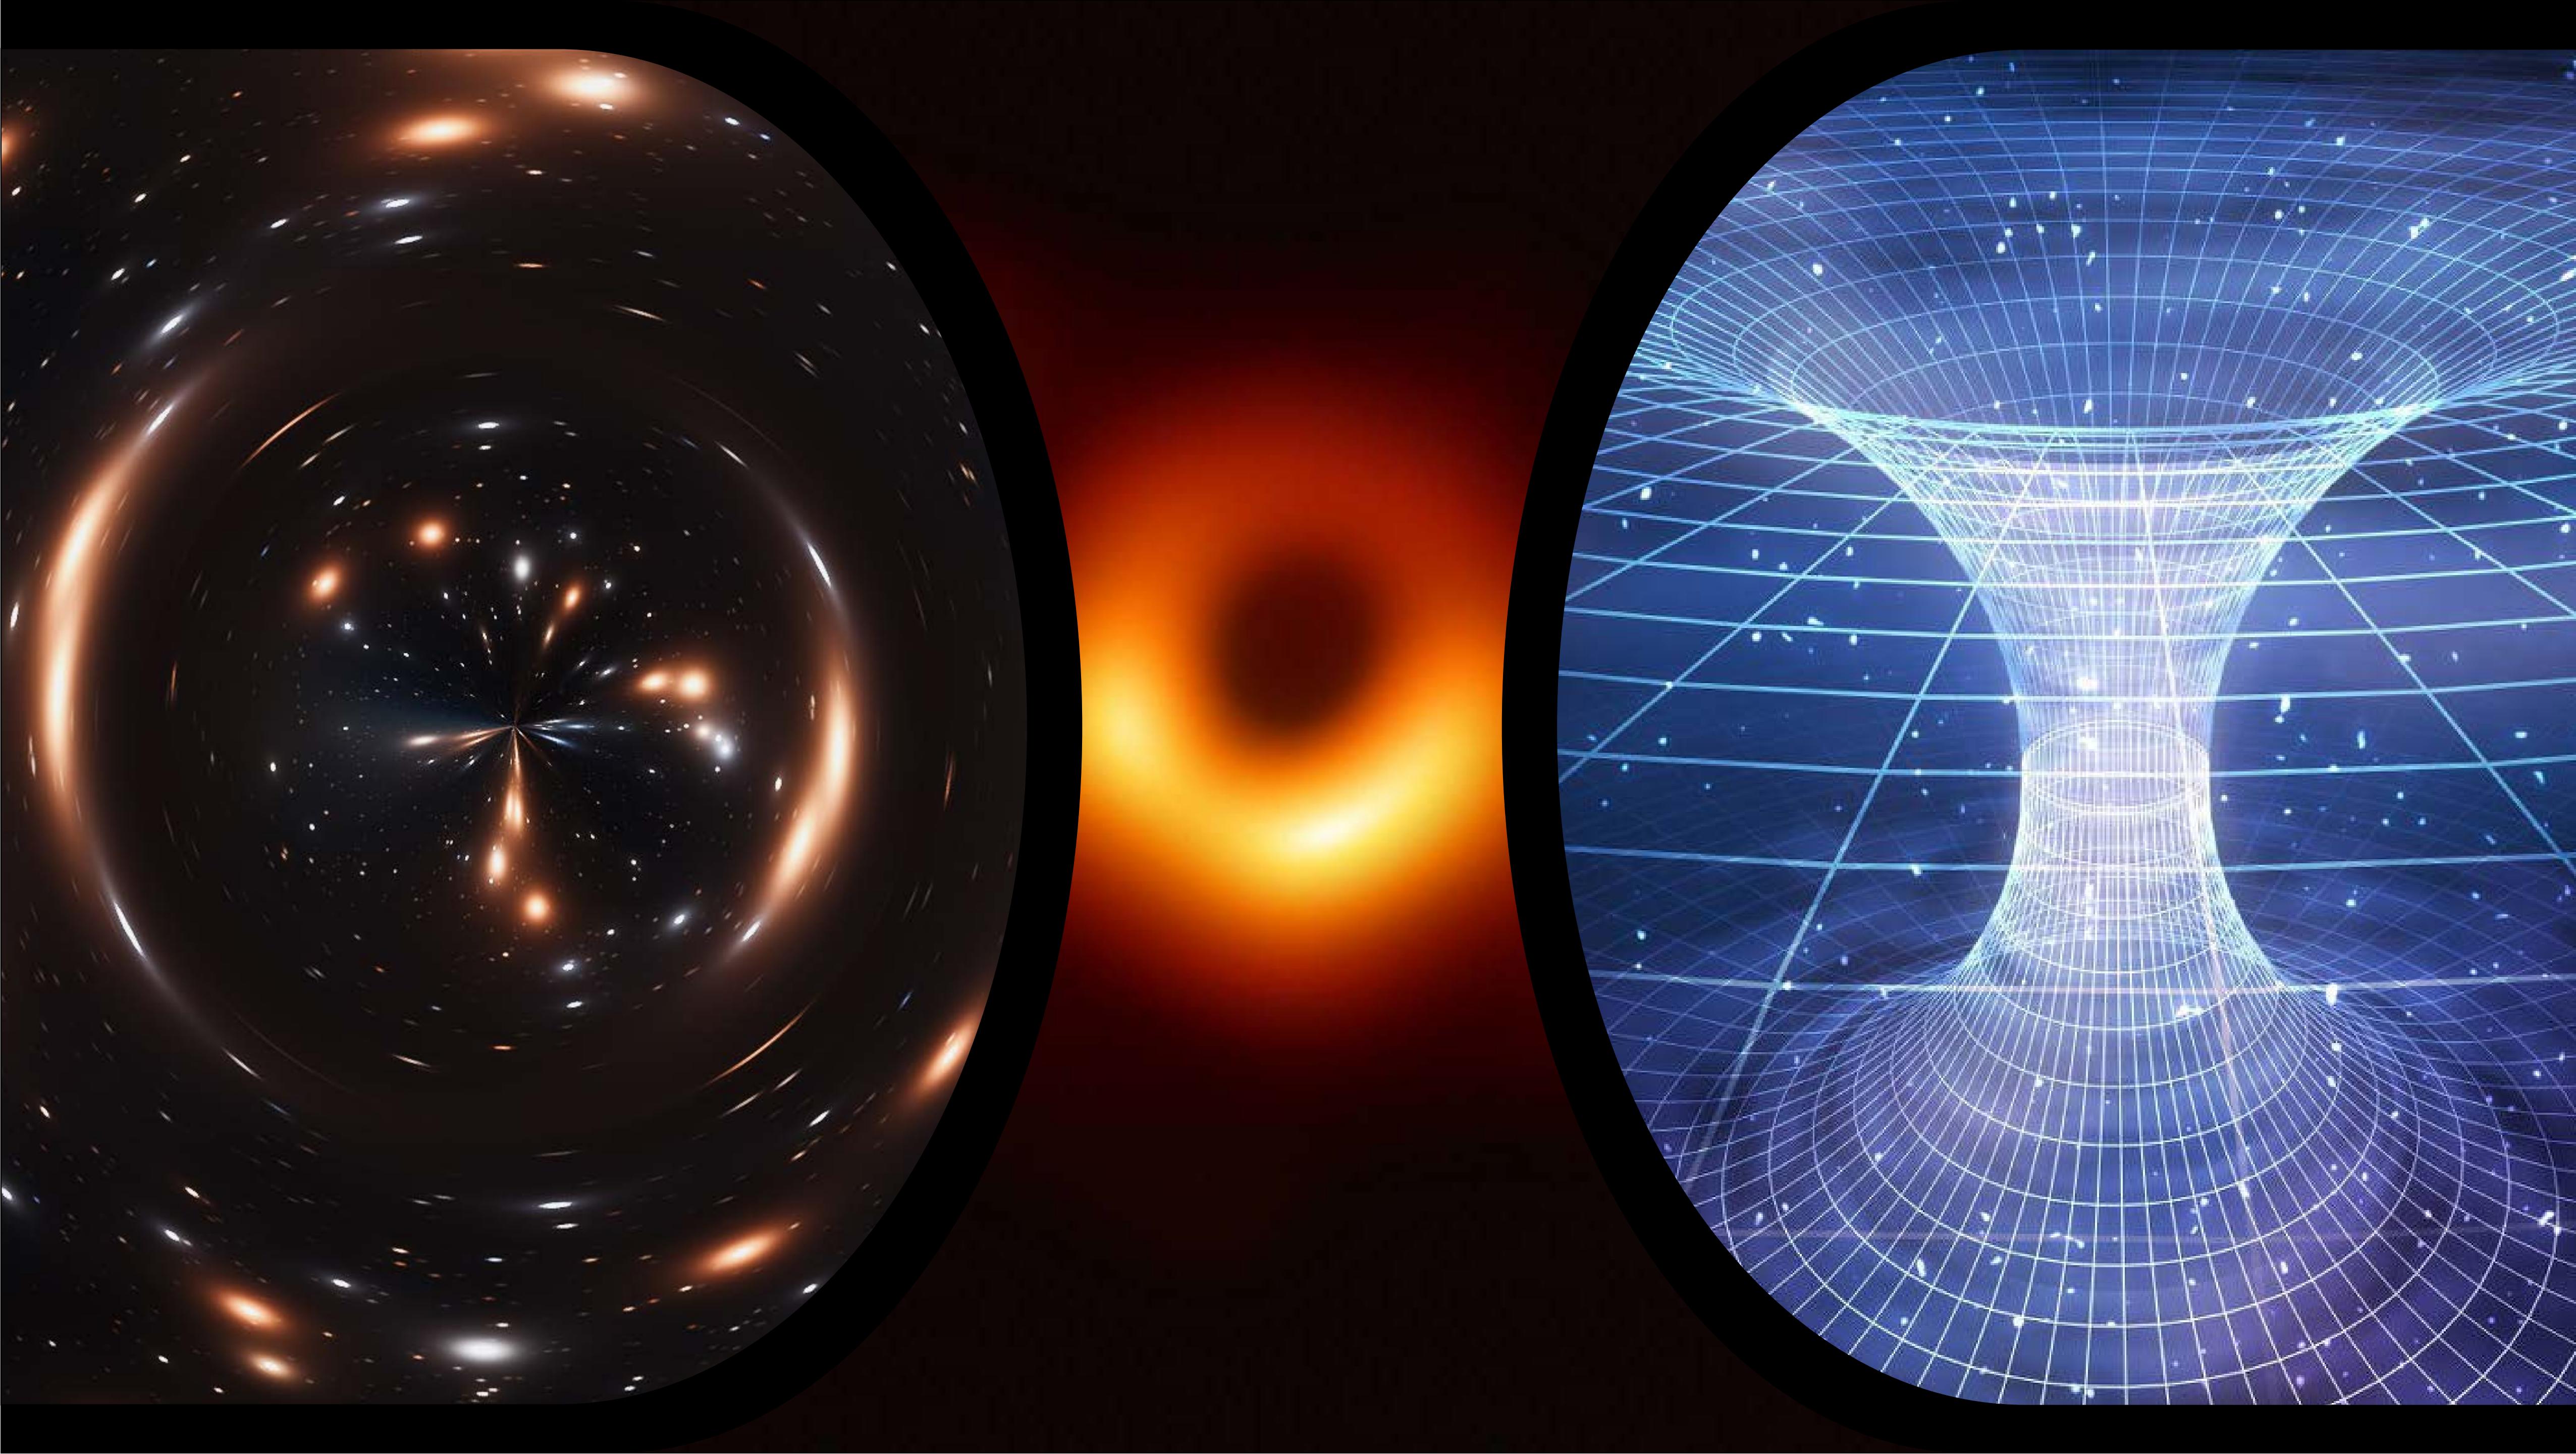

**Qu'est ce que
l'Espace Temps ?**

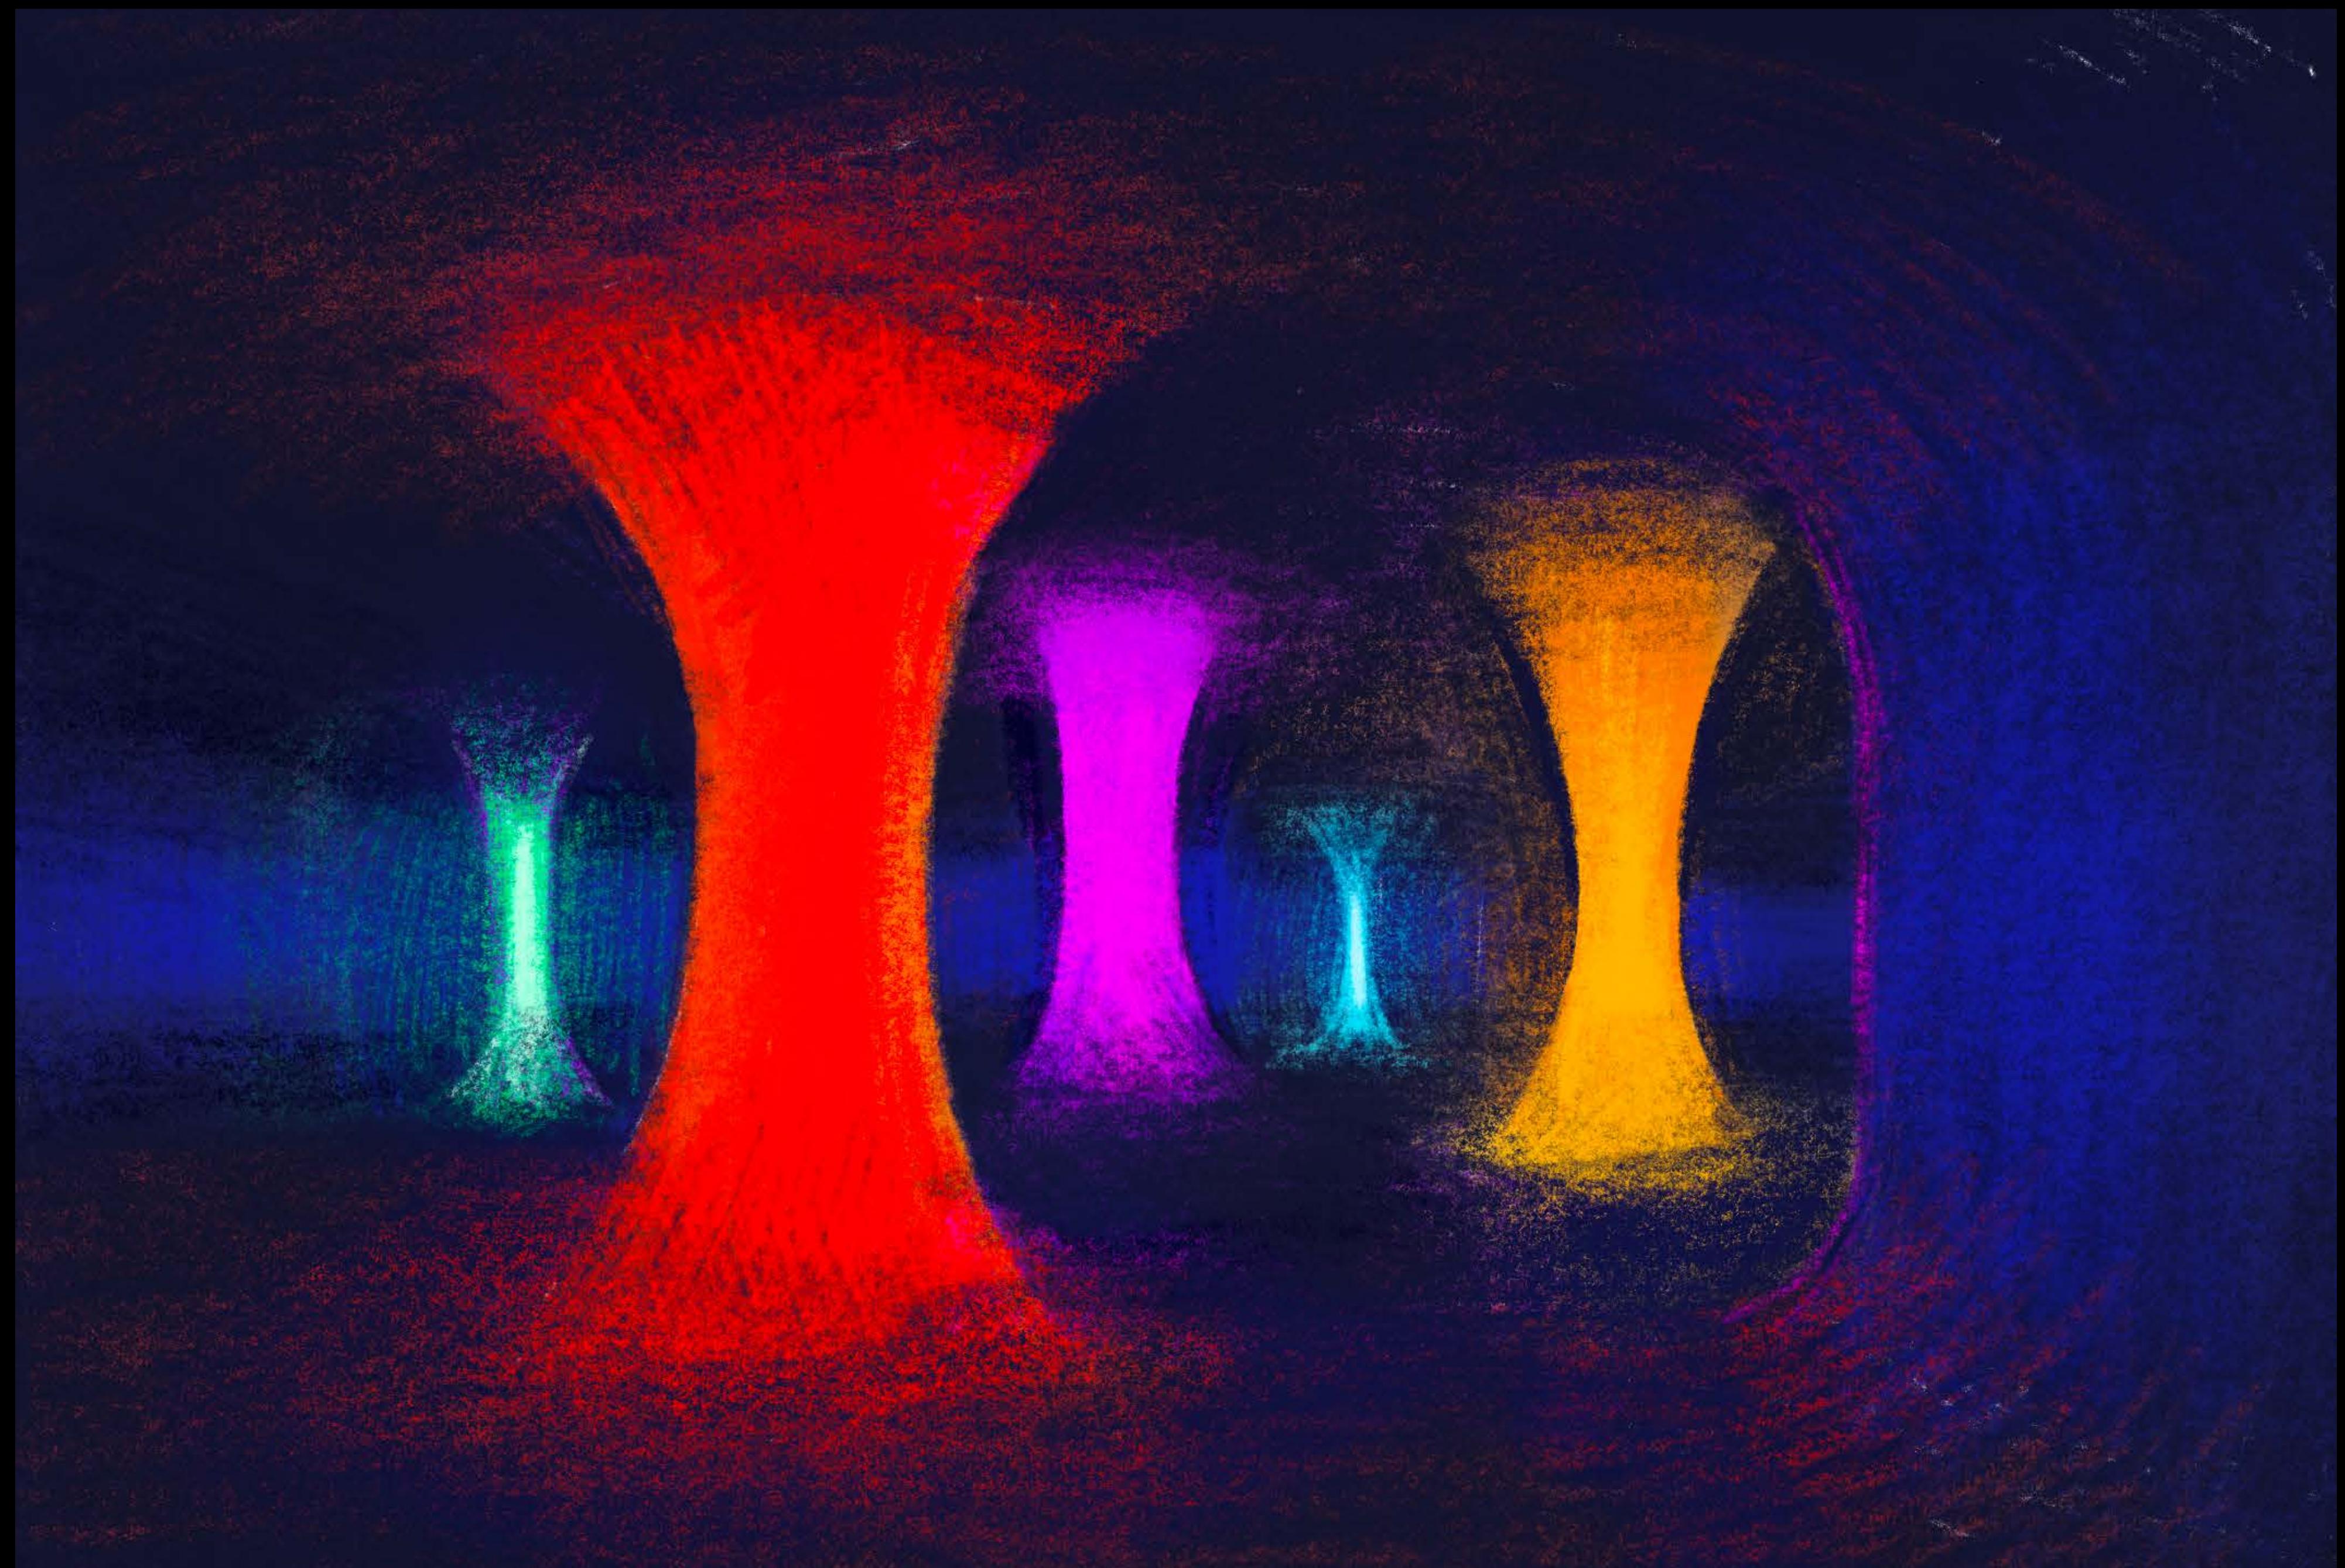

est-il manipulable ?
est-il observable ?
est-il visible ?
pourquoi est-il mesuré ?
est-il physique ?
à quoi sert-il ?
est-il tangible ?
est ce une invention humaine ?
comment s'écoule-t-il ?
existe-t-il vraiment ?
est-il déformable ?

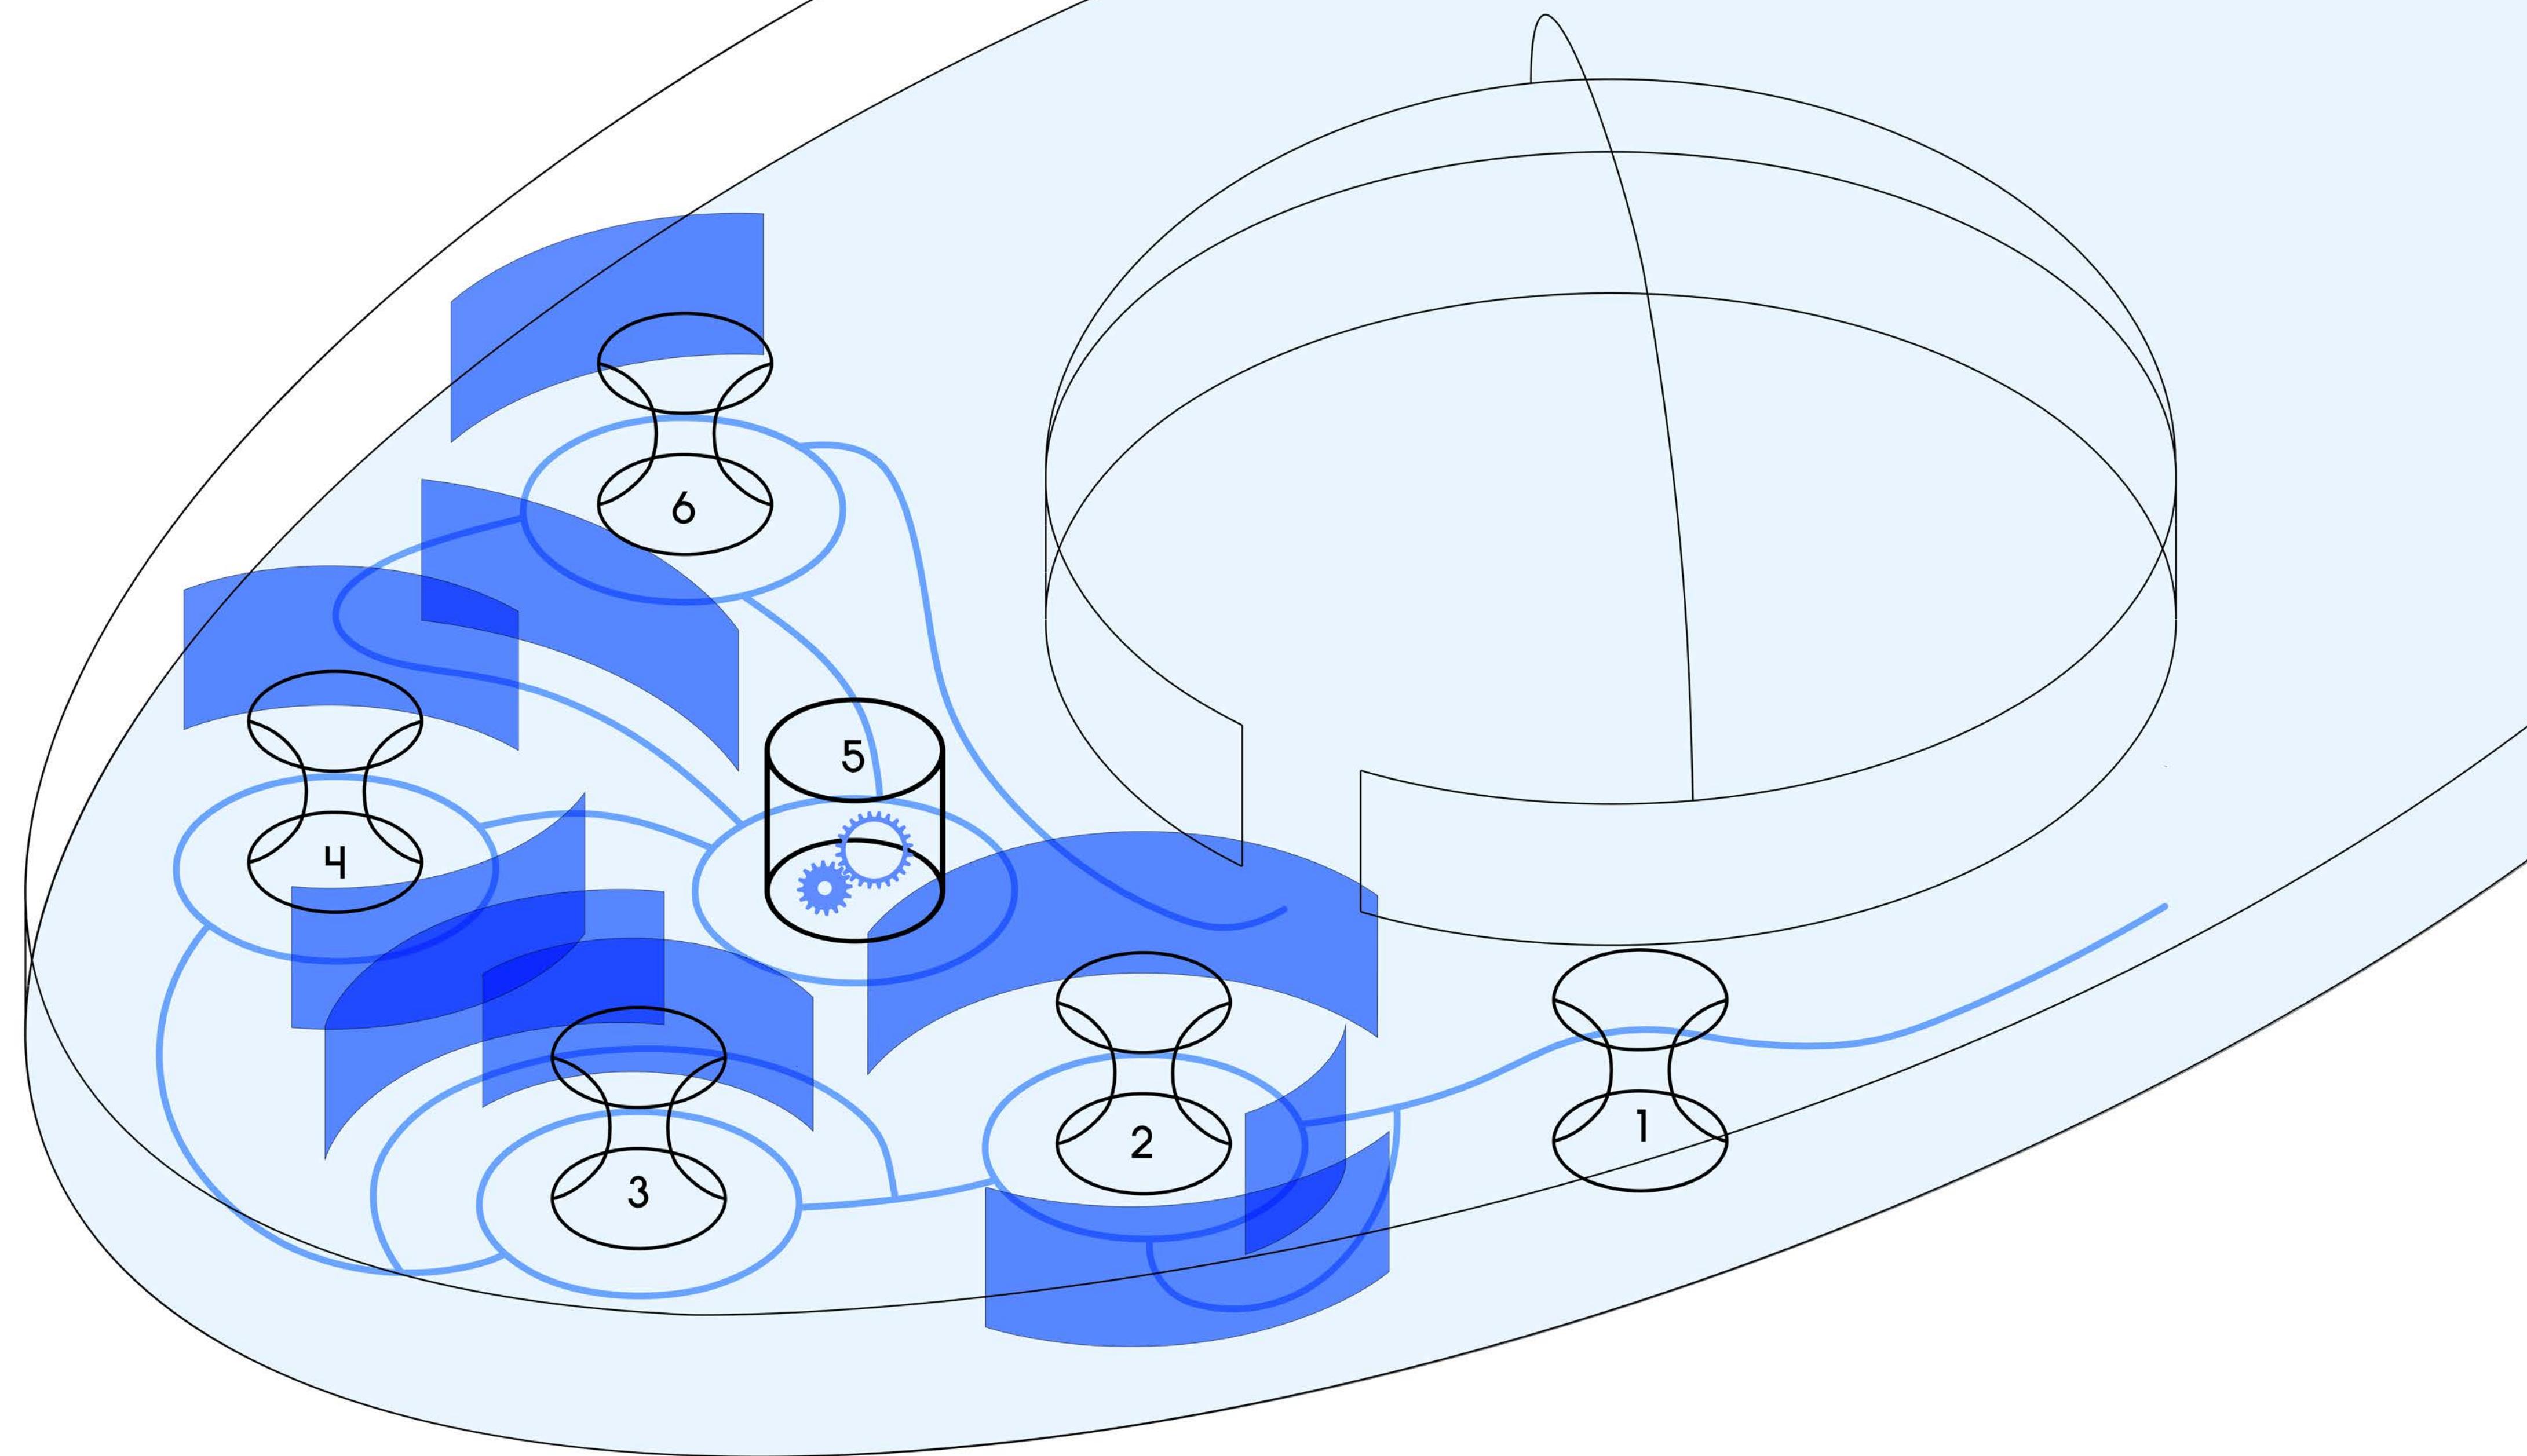

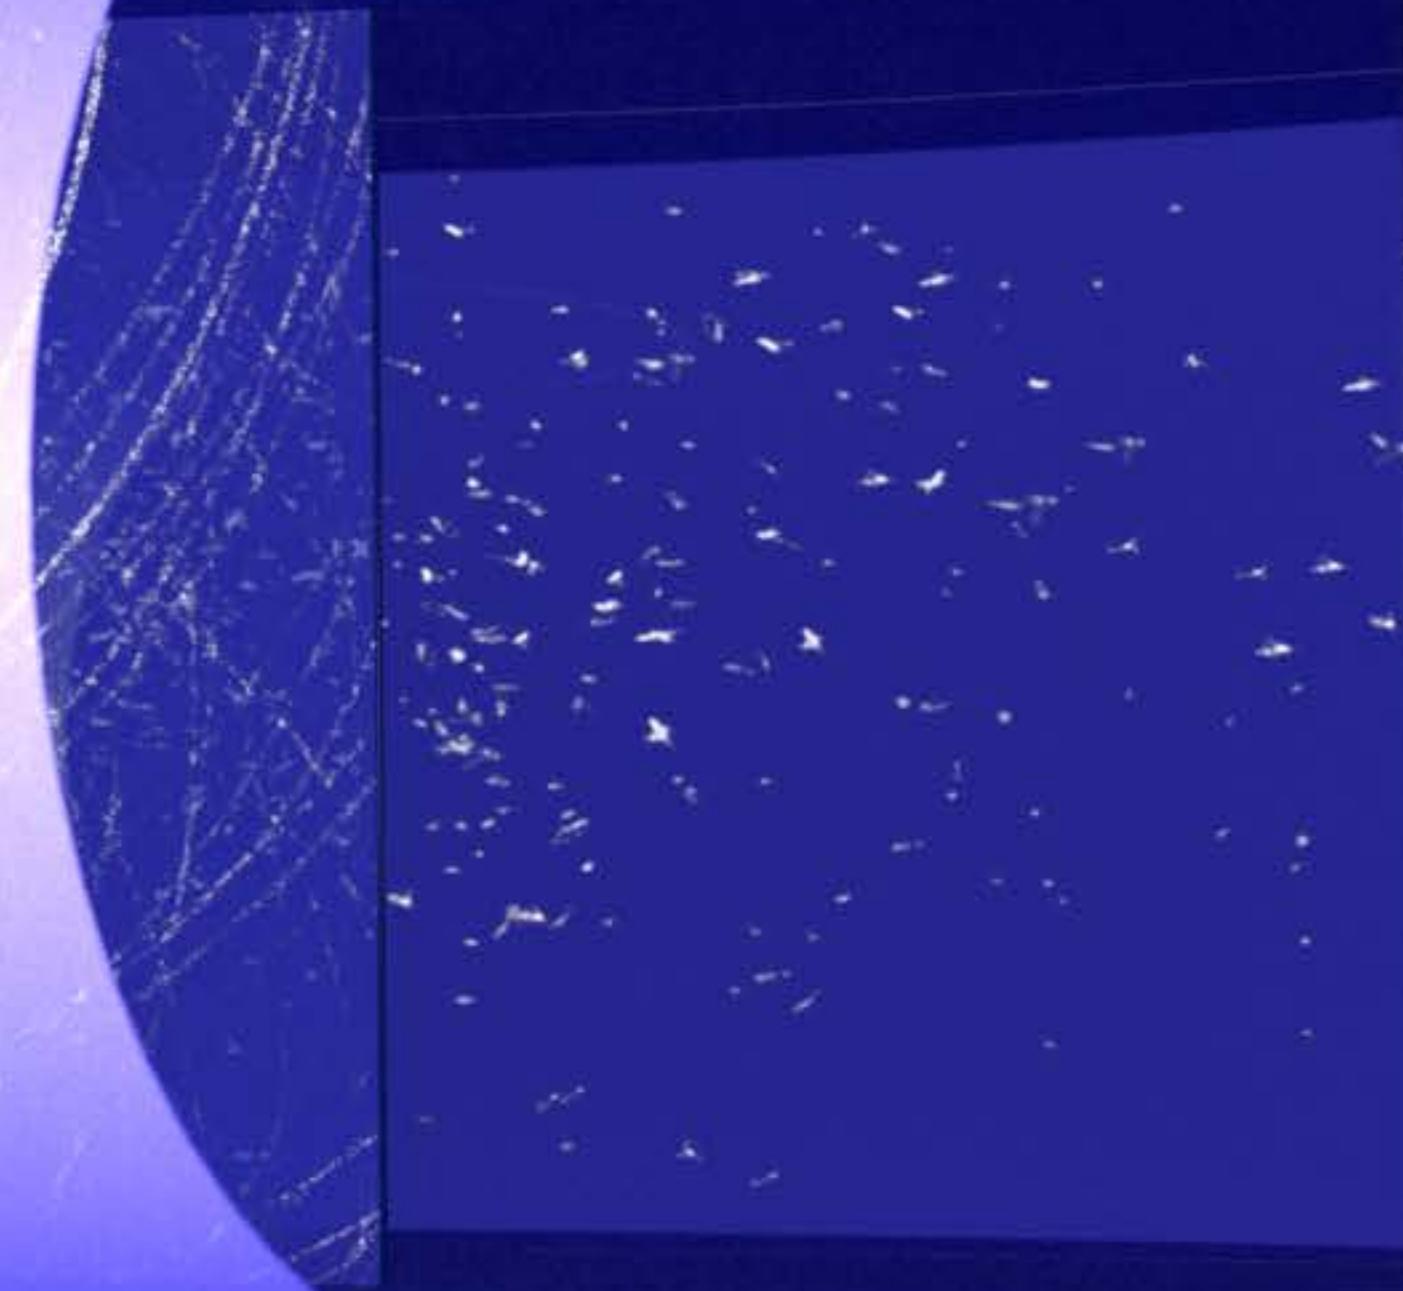

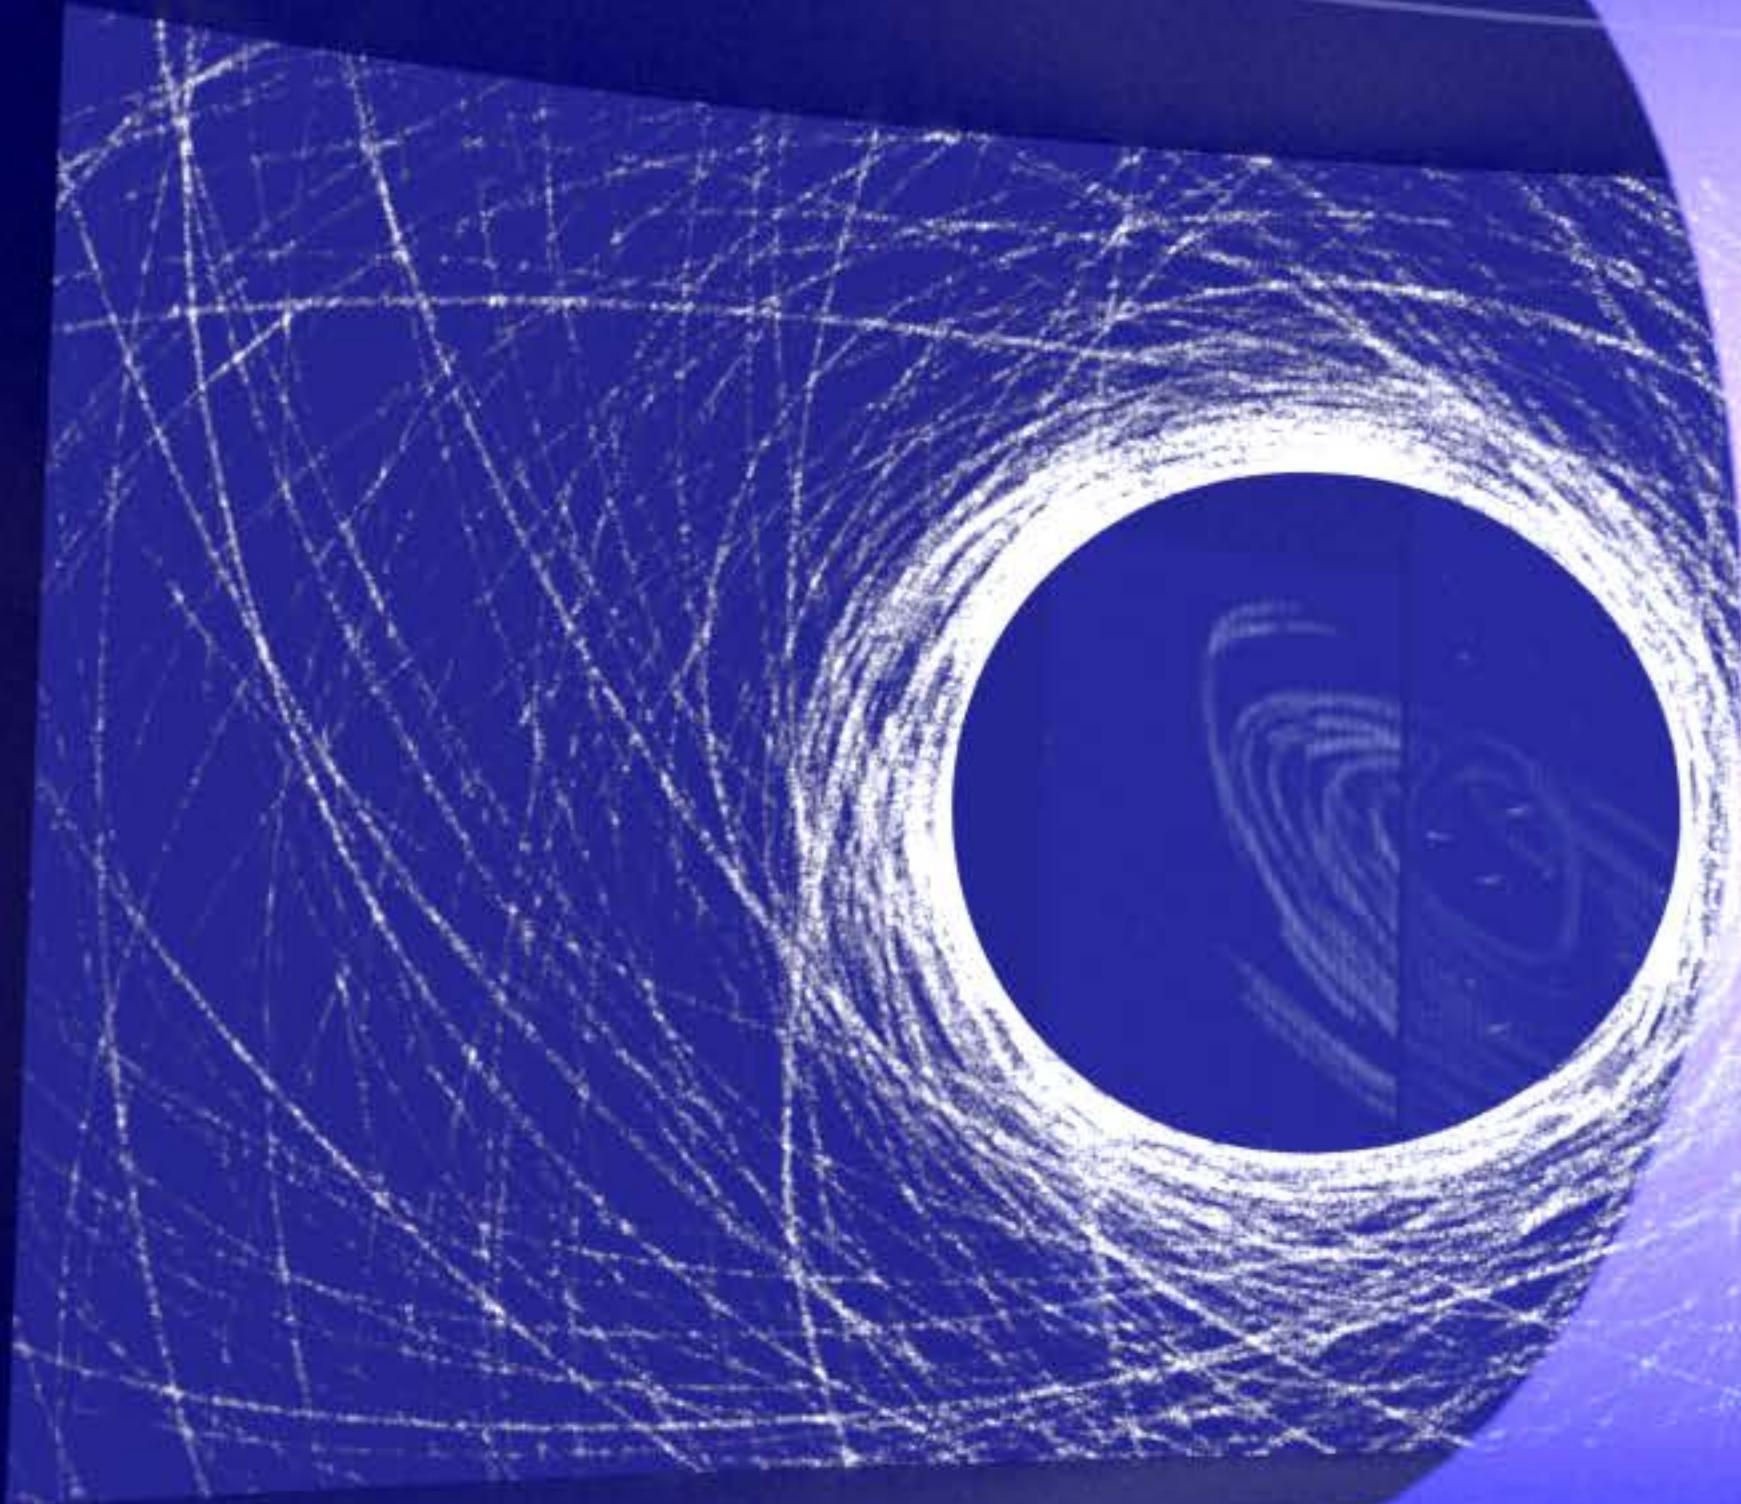

La théorie du Trou de Ver
